

• **Mini Eclipse** combines power and functionality to create an effortlessly sleek unit. This solar panel is crafted with the highest efficiency cells that Renogy has to offer, making it both smaller and lighter than its traditional counterpart. Weighing in at a mere 12.3 pounds, the Mini Eclipse is also easier to transport and store. The built-in kickstand allows you to tilt the panel for greater sun coverage and charging efficiency, making the Mini Eclipse the ideal choice for on-the-go applications.

• **Sound Commander** is a portable, rugged speaker system designed for use in a variety of environments. It features a powerful 120-watt RMS amplifier, a control panel with 4 inputs for microphones and other audio systems, and 3 separate volume controls. The unit is protected by an aluminum skeletal framework and a custom-built integral padded soft case (for portable models).

• **SC1100LS Land/Sea** system is permanently installed on any vehicle or facility with a 12VDC power source (24VDC also available). Two external mount loudspeakers with cables are included. The **SC1100LS** can operate up to four external speakers.

• **SC1100LS Land/Sea** system is permanently installed on any vehicle or facility with a 12VDC power source (24VDC also available). Two external mount loudspeakers with cables are included. The **SC1100LS** can operate up to four external speakers.
